Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submissions filed on October 16, 2009 and March 29, 2010 have been entered.
2. Claims 1-4 and 6-23 are amended; claim 5 is canceled. Claims 1-4 and 6-23 are under examination.

Specification

3. The disclosure is objected to because of the following informalities: paragraphs 50-52 refer to numbers 1, 2 and 3 in Figure 1. However, there are no such numbers in any of the drawings.

Appropriate correction is required.

Drawings

4. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: 1-3. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any

amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

5. Claims 1-4 and 6-23 are objected to because of the following informalities:

- Claim 1 is objected to because it recites the limitations "the finished shoe" in the preamble; and "the outer outline" in step A without sufficient antecedent bases for these limitations. Appropriate correction is required.
- Claim 9 is objected to be is unclear whether the adhesive or centering pins following the phrase "preferably by" are required limitations in the claim.
- Claim 10 is objected to because it is unclear whether the limitations following the term "optionally" are required.
- Appropriate correction is required.

Response to Arguments

6. Applicant's arguments filed September 21, 2009, with respect to the rejection(s) of claim(s) 1-4 and 6-23 under 35 USC 103(a) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn.

Allowable Subject Matter

7. Claim 1-4 and 6-23 would be allowable if rewritten or amended to overcome the objections, set forth in this Office action.
8. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record does not teach or suggest a method for molding soles and shoe welts by attaching a welt along an edge of a thin auxiliary sole which is pervious to plastic material and assists in keeping the welt in place, and vertically moving the lower mold into position and a circumferential support face co-acting with a pressure surface such that a portion of the welt facing the shoe upper is tilted inwards and downwards to bring an inner end face of the welt into sealing engagement with a lower side section of the shoe upper.

Conclusion

9. This application is in condition for allowance except for the following formal matters:
- the objections to the specification, drawings, and claims as discussed above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
